

ACADEMIA SUPPORT CONTRACTS FOR SCHOOLS

Academia understands the challenges and demands faced by schools with digital learning becoming a key component of the curriculum. Pressure to deliver high-quality to students is high for IT departments and sometimes extra support is useful.

What is Care+

Our in-house Care+ solution is a support contract to manage all your IT needs. Contracts are comprehensive and include support for all your hardware, software and network – typically covering servers, desktops, laptops and tablet PCs.

We have an array of options tailored to suit your individual needs and with specific SLAs, one thing guaranteed is your peace of mind at an affordable cost!

THE BENEFITS

Reduce costs

Predictable costs to reduce your overall expenditure

Flexible and scalable

Scale up and down as required

Reduce IT risks and downtime

Proactive management and SLAs

WHAT'S INCLUDED?

Technical helpdesk & telephone support:

Log a call with our helpdesk and we'll respond within an agreed SLA

Remote support:

If an issue can't be resolved over the phone then we can access your site remotely and take control of the device to fix the issue

On-site engineer visits:

Decide how many days you wish to pre-book to cover assistance with fault diagnostics, repairs and general IT issues – or utilise engineers when a remote solution to a problem isn't feasible
